

NEW MEXICO GAS COMPANY ENERGY STAR® Qualified Fryer Rebate Form for New Mexico Gas Company Business Gas Customer

Program Description

NEW MEXICO GAS COMPANY is offering \$250 rebates to non-transportation business gas customers for installing ENERGY STAR qualified gas fryers.

According to ENERGY STAR, an ENERGY STAR qualified gas fryer can save 504 therms annually, or approximately \$443 per year on natural gas bills for a NEW MEXICO GAS COMPANY Rate 54 customer, based on 2007 average cost of gas. The energy savings plus the NEW MEXICO GAS COMPANY rebate means that the additional cost of an ENERGY STAR fryer can be recovered in as little as two years.

As of the end of January 2008, there were more than 35 qualifying fryers from Ultrafryer Systems, Inc., Pitco Frialator, Keating of Chicago, Inc., Henny Penny Corporation, Frymaster L.L.C., and Aga Foodservice, Inc. The current list of qualifying fryers is available on the Energy Star website: www.energystar.gov/index.cfm?c=fryers.pr_fryers. An energy calculator is also available at the website to help estimate your specific savings.

Eligibility

To qualify, you must be a non-transportation customer receiving gas service under NEW MEXICO GAS COMPANY Rate 54 (zero to 200,000 therm use annually) or NEW MEXICO GAS COMPANY Rate 56 (200,000 to 2,000,000 therm use annually). If you are a Rate 54 customer, you will see the description "General Service Small Volume" on your bill. Rate 56 customers will see "General Service Medium Volume" on bills.

To qualify for a rebate, the fryer must meet a minimum cooking efficiency of 50% (gas) while also meeting a maximum idle energy rate of 9,000 Btu/hr. In addition, ENERGY STAR qualified fryers:

- Are up to 25% more energy-efficient than standard models
- Only include gas open-deep fat models
- Feature shorter cook times and higher production rates through advanced burner and heat exchanger designs, and frypot insulation that reduces standby losses, resulting in a lower idle energy rate.

To get a rebate

1. Purchase and install qualifying ENERGY STAR gas fryers. The fryers can be used in both new construction and retrofits/upgrades, but all equipment installed must be new. Used or rebuilt equipment is not eligible.
2. The equipment for rebates must be installed where you receive NEW MEXICO GAS COMPANY gas service on the NEW MEXICO GAS COMPANY gas bill submitted and the location indicated on the rebate form.
3. The equipment must meet the technical requirements listed in this application form, and it must be purchased beginning January 24, 2008, and installed by December 31, 2009.
4. Rebate applications must be postmarked by January 31, 2010.
5. Include a recent copy of your NEW MEXICO GAS COMPANY gas bill and the original receipt from your equipment purchase and installation.
6. Invoice(s) must include the quantity, price, manufacturer make and model numbers, and product codes for each item.
7. Use the Rebate Worksheet portion of the rebate form to calculate your rebate amount by multiplying the quantity of fryers purchased and installed by the \$250 Rebate per fryer.

8. Send your completed and signed rebate form and other information noted above to:

**NEW MEXICO GAS COMPANY ENERGY STAR Qualified Fryer Rebate
c/o EFI Rebate Processing Center
40 Washington Street, Suite 2000
Westborough MA 01581-1012**

9. For more information, please call NEW MEXICO GAS COMPANY Energy Efficiency Program Technology Representative Dru Jones at 888-664-2726.

Other information

- NEW MEXICO GAS COMPANY will issue rebate checks, not utility bill credits. Rebates are the property of the NEW MEXICO GAS COMPANY business gas customer whose account number is listed on the rebate application.
- NEW MEXICO GAS COMPANY recommends having this equipment installed by a qualified contractor.
- Please keep a copy of your receipts and completed form for your records.
- You will receive your rebates in 6-8 weeks. For questions regarding the status of your rebate application, please call the NEW MEXICO GAS COMPANY rebate processor, EFI, at 1-877-913-2613.
- Applications are subject to verification, and incomplete information may delay or disqualify your rebate. NEW MEXICO GAS COMPANY reserves the right to withhold payment for products that do not meet the requirements, or if the contractor violates program rules and procedures. NEW MEXICO GAS COMPANY is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
- NEW MEXICO GAS COMPANY is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail. All completed submissions become the property of NEW MEXICO GAS COMPANY and will not be returned.
- The selection, purchase, maintenance and ownership of the equipment is the sole responsibility of the customer, NEW MEXICO GAS COMPANY makes no representation as to the safety, reliability and/or efficiency of the equipment selected or components thereof. NEW MEXICO GAS COMPANY makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for any particular purpose, use, or application of the equipment.
- To help ensure program quality, you may be selected for a telephone survey or on-site inspection to verify information you supply to us to receive your rebate. By applying for a rebate, you agree to participate in any surveys or interviews, if selected.
- The NEW MEXICO GAS COMPANY Energy Efficiency Program is subject to change or cancellation at any time and without notice. By participating in the Energy Efficiency Program customers agree to waive any claims and release NEW MEXICO GAS COMPANY from any liability for damages, of any kind, relating to the quality of products obtained or workmanship associated with any product installation performed by any Participating Retailer or Contractor.
- NEW MEXICO GAS COMPANY does not make guarantees about the availability of products; does not endorse any particular manufacturer, product or system design; expressly or implicitly warrant the performance of installed equipment; is not liable for any damage caused by the operation or malfunction of the installed equipment; and does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program.
- Rebates are funded by the NEW MEXICO GAS COMPANY business Gas Energy Efficiency charge on gas customer bills.
