PIPELINE WORK TO BEGIN ALONG ISLETA BOULEVARD
NMGC IS RELOCATING NATURAL GAS INFRASTRUCTURE

ALBUQUERQUE – New Mexico Gas Company is beginning a 21-week pipeline project along Isleta Boulevard in Albuquerque’s south valley, relocating and upgrading natural gas infrastructure between Interstate 25 and Luchetti Road.

The construction will make room for an upcoming Bernalillo County project that will install storm drainage, bike lanes, walkways and other improvements.

NMGC’s portion of the project begins Monday, October 5, and is expected to be completed in February 2027.

No interruption of natural gas service to customers is anticipated.

###

About New Mexico Gas Company

New Mexico Gas Company is the largest natural gas distribution utility in the state, serving about 1.3 million customers by providing energy to more than 553,000 homes and businesses. The Company has about 750 employees in 26 offices who are responsible for safely and reliably operating more than 12,000 miles of pipelines. Learn more at www.nmgco.com.
