

New Mexico Gas Company's Infrastructure Expansion Program

New Mexico Gas Company (NMGC), and its owner Emera Inc., has created and funded an Infrastructure Expansion Program to promote economic development within the state of New Mexico. The Program provides for up to \$10 million in matching funds to existing communities, or parts of communities in New Mexico, that are currently not served or underserved by natural gas, to help offset some of the costs of extending NMGC's natural gas infrastructure to these communities.

The details of the Program are set forth in the two attached documents: The "Infrastructure Expansion Program Guiding Principles" and "Infrastructure Expansion Program Application Process and Guidelines".

Please review these documents to determine if you are eligible to participate in this Program, and to learn how the Program is intended to operate.

If you have any questions, please feel free to call Mary Homan (505-697-3833), Rebecca Carter (505-697-3832), Steven Cordova (505-697-3559), Diana Jaramillo (505-697-3459) or Lloyd Hatch (505-659-9791).
